

2015 Annual School Performance Report

CK > Esquire Hills Elementary School

2650 NE John Carlson Road • Bremerton, WA 98311
(360) 662-8600 • <http://moodle.ckschools.org/course/view.php?id=634>

Welcome to Esquire Hills Elementary!

Principal Susan Zetty

Our district's mission is to equip our students with the knowledge and skills to succeed and prosper in an ever-changing global society.

Our school mission is, "Esquire Hills will be a community of productive learners. In a world that is continually changing and becoming increasingly interdependent, we at Esquire Hills will acquire knowledge, attitudes, and skills needed for our future. Through facilitating the process as well as the product,

we will strive to make learning relevant, meaningful, and fun."

We invite our parents and community to join with us to provide a strong educational program for our students.

To volunteer, please call the school office at (360) 662-8600. We would enjoy having you work with our students!

About our school

Esquire Hills Elementary School opened in 1977. The main building is single-story, with 54,818 square feet. We have 20 classrooms (K-6) with support service spaces including a gym, library, multipurpose room, music room and special education classrooms. Our staff members are committed to strong collaboration and professional development. This year, we implemented a schoolwide

system of support which includes proactive strategies for defining, teaching, and supporting appropriate student behaviors. The purpose is to create a positive school environment and help our students have ownership in helping Esquire Hills be a place in which all students feel safe and are able to learn. A variety of activities occur at Esquire Hills inside and outside the instructional day.

Esquire Hills offers opportunities for all students to be engaged in learning and fun.

Success for all students

Each fall, we review the results of the state test called the SBA, "Smarter Balanced Assessments." Students are tested in reading, writing, math and science. You may view our results online at <http://reportcard.ospi.k12.wa.us>.

We consider these results, as well as a variety of other data, to see how our students performed. From this information, we set goals and write strategies to meet these goals. This plan to improve teaching and learning is called a School Improvement Plan.

During the 2014-15 school year, our School Improvement Plan included goals

and strategies for reading, math, writing, science, diversity and technology. Staff had several opportunities to collaborate on the academic and behavioral progress students were making.

As educators, we are excited to continue growing and learning new techniques and strategies to better teach our students the skills necessary for academic and life-long success.

Good attendance is a great way to promote success in school. During the 2014-15 school year, our daily attendance rate was 92.0%.

Want to learn more? Detailed reports on individual schools are available on the Office of the Superintendent of Public Instruction (OSPI) website. Reports include demographics, progress over time, gender, ethnicity, and special program information. Visit <http://reportcard.ospi.k12.wa.us>.

The CKSD 2014-15 per-student expenditure of approximately \$10,837 included \$7,714 for "basic education" and \$3,123 for "categorical" programs. Our annual budgets are always available on our website at www.ckschools.org. Go to *District Business > Budget*.
