

# 2017 Annual School Performance Report

## CK Fairview Middle School

8107 Central Valley Road NE • Bremerton, WA 98311  
(360) 662-2600 • <http://fairview.ckschools.org>

## Welcome to Fairview Middle School!

Our district's mission is to equip our students with the knowledge and skills to succeed and prosper in an ever-changing global society. Fairview's goal is to provide the best education for all our students. Our main focus is on academic achievement. We offer an engaging curriculum that helps students meet the challenging standards which will prepare

them for high school. Our teachers use research-based teaching strategies and materials to ensure students are ready for the future.

In the 2016-17 school year, Fairview welcomed sixth graders in addition to grades 7 and 8. To support this transition, we are part of a nationwide

program peer-mentoring program called WEB (Where Everyone Belongs).

Volunteers are vital to our success. Student achievement is a community effort, and we welcome your assistance! To learn more, please call our office at (360) 662-2600.

## About our school

Fairview has 36 rooms, a gymnasium, and a modern library with updated resources and multiple computer stations with wireless-Internet capability. The Applied Technology Laboratory provides state-of-the-art learning opportunities for students who desire to pursue careers in computers and modern manufacturing techniques as well as aviation. Additionally, Fairview began an innovative

robotics class for students during the 2015-16 school year.

Built in 1971, our school has seen significant building improvements over the past five years. This includes the completion of a new roof, exterior painting, a science classroom remodel and a new gymnasium floor.

*Fairview teachers and staff are dedicated to ensuring that all students have the best possible educational environment.*

## Success for all students

As part of the Elementary and Secondary Education Act, schools must complete an annual School Improvement Plan, in which they review, evaluate, and set goals for academic improvement. To develop these plans, schools analyze results from statewide assessments. You can review our results online at <http://reportcard.ospi.k12.wa.us>.

Fairview's plan focuses on increasing student achievement through research-based learning activities and regular progress monitoring. The educational staff utilizes several early release-days through the year to meet and plan the implementation of these activities. They

also gather to review student work and evaluate students' needs.

Each year, the focus of the plan adjusts to the student body's strengths and needs for growth. Our current plan includes goals to support our work with students during the 2017-18 school year.

Good attendance is a great way to promote success in school. During the 2016-17 school year, our daily attendance rate was 92.23 percent.

Want to learn more? Detailed reports on individual schools are available on the Office of the Superintendent of Public

Instruction (OSPI) website. Reports include demographics, progress over time, gender, ethnicity, and special program information. Visit <http://reportcard.ospi.k12.wa.us>.

The CKSD 2016-17 per-student expenditure of approximately \$12,417 included \$9,669 for "basic education" and \$2,748 for "categorical" programs. Our annual budgets are always available on our website at [CKschools.org](http://CKschools.org). Go to *District Business > Budget*.
