

Central Kitsap School District Supplemental Educational Services List of Approved Providers 2015-2016

For students at Woodlands Elementary, Esquire Hills Elementary and Fairview Junior High Schools

If your child qualifies for the free and reduced lunch program at Woodlands Elementary, Esquire Hills Elementary or Fairview Middle School, he/she is eligible to receive Supplemental Educational Services. These tutoring services are provided outside of the school day and by a variety of companies.

If you want information about a specific program provider please contact them directly. To find out more information about SES in general visit your school's website or contact Jenni Narimatsu by calling 360-662-1730 or by emailing JenniN@cksd.wednet.edu

If you wish to register for SES, enrollment forms will be available at the main office of the school and on the website starting September 23.

#1 in Learning Online, Inc

Contact Person: Tamir Oheb

Address: 10600 Sepulveda Blvd., Mission Hills, CA 91345

Phone: 866-698-6537

Email: toheb@1inlearningonline.com

PROGRAM DESCRIPTION

#1 in Learning Online (#1LO) exists to provide the finest quality Online tutoring for K-12 students. Our desire is to groom the character and learning abilities of our students in order to help them face and conquer the challenges of their educational career. #1LO has successfully helped students achieve grade level proficiency since 2011. Additionally, our students experience a 1-2 grade level increase at the completion of our program. Our philosophy is that tutoring is used to accompany the ability to learn. We believe in "completing the student" and by that, we are able to stay focused on our main goal, which is always student growth and achievement!

A+ In Home Tutoring

Contact Person: Tony Martinez

Address: PO BOX 364, Placida, FL 33946

Phone: 888-540-5556

Email: ses@aplusinhometutoring.org

PROGRAM DESCRIPTION

A+ In Home Tutoring provides highly individualized tutorial services to all students grades K-12 in reading and mathematics. Services are designed to meet the educational needs of all students including students with disabilities and English Language Learners. This method of individualizing instruction is highly effective in raising student achievement levels. For this reason A+ In Home Tutoring only provides services one-on-one services. By offering this type of program, parents have the flexibility to choose the most convenient program for their family but at the same time assure that their student receives the benefits of individualized instruction. This model of instruction ensures that students respond best to tutorial session topics and content as they directly align to that student's specific needs and prevent frustration or embarrassment that the student may face in the classroom or larger group setting. Services in the A+ In Home Tutoring program take place primarily in the student's home preventing the need for transportation on behalf of the parent. While the parent/authorized adult must be present for the entire tutorial session, offering the convenience of in-home tutoring and the opportunity to set their own schedule directly with instructional tutor prevents unnecessary cancellations and allows sessions to be conducted consistently for the student. Sessions take place 1-2 times per week as determined by parent/guardian preference. The A+ In Home Tutoring program has proven to be effective especially with underachieving students with average increases in mastery around 20% from start to finish of the program.

A+ In Home Tutoring provee servicios individualizados de tutorías a todos los estudiantes desde K a 12 en lectura y matemáticas. Nuestros servicios están diseñados a cumplir con las necesidades educativas de todos los estudiantes incluyendo estudiantes con discapacidades y estudiantes aprendices del idioma ingles. Este método de instrucción individualizada es altamente efectivo en incrementar el nivel de logro de los estudiantes. Por esa razón, A+ In Home Tutoring provee servicios solamente uno-a-uno. Ofreciendo esto tipo de programa, los padres tienen la oportunidad de elegir el programa más conveniente para su familia pero al mismo tiempo asegura que su estudiante reciba los beneficios de una instrucción individualizada. Este modelo de instrucción asegura que los estudiantes responderán mejor a las materias y contenidos ya que están directamente alineados a las necesidades específicas del estudiante y evita la frustración o vergüenza que el estudiante pueda afrontar en la sala de clases o en un ambiente de grupos grandes. Los servicios del programa de A+ In Home Tutoring se realizan fundamentalmente en la casa del estudiante, así los padres no necesitan de ningún tipo de transporte. Aunque el padre tenga que estar presente durante toda la sesión de tutoría, esto ofrece la conveniencia de tutorías en la casa y la oportunidad de crear su propio horario directamente con el tutor evita cancelaciones innecesarias y permite que las sesiones sean realizadas consistentemente para el estudiante. Las sesiones ocurren 1 a 2 veces por semana como sea determinado por los padres. La efectividad del programa de A+ In Home Tutoring ha sido probada especialmente con estudiantes de bajo rendimiento los cuales incrementan sus conocimientos en 20% de comienzo a término del programa.

Above and Beyond Learning

Contact Person: Alejandro Regalado
Address: 1243 SW 143 CT, Miami, FL 33184
Phone: 800-416-1833
Email: ses@above-and-beyondlearning.com

PROGRAM DESCRIPTION

Above & Beyond Learning provides aggressive supplemental education that is consistent with district practices and structured to meet the needs of students in reading, language arts or mathematics in grades K-12. Each student is evaluated prior to tutoring using an assessment that identifies skill gaps which are incorporated into the student's learning plan, which serves as the basis for tutoring. Since 2010 Above & Beyond Learning has successfully serviced over 5000 students in 10 states with an improvement of at least 15% from pre to post test and a program completion rate of 95%. We offer individual, online and group tutoring with an emphasis on individualized instruction in Reading, Language Arts or Mathematics.

Academia.net, Inc.

Contact Person: Joseph Becker
Address: 3464 Savannah Ave, White Bear Lake, MN 55110
Phone: 866-320-4753
Email: j.becker@acadamia.net

PROGRAM DESCRIPTION

Academia.net, Inc. will improve your student's performance through online tutoring coupled with face-to-face instruction in the safe environment of your child's school or home. We have successfully tutored over 4600 students in the state of Washington from 2003 to 2015. Academia.net, Inc. provides tutoring in Math and Language Arts, including reading and writing, for grades K-12.

Academia.net, Inc. uses a comprehensive evaluation to identify each student's strength and growth areas and then tailors the lessons and instruction to meet their individual needs. Based on the student's initial assessment results, we create a customized curriculum to help your student improve their Math and Language Arts skills. Our school based program is a blended learning experience offering the best of two worlds; online instruction and face-to-face instruction by a qualified, trained instructor. Our home based services offer a high level of flexibility, where students choose their own schedule and complete a total of 20-30 one-hour online sessions. If necessary, we will provide computers and/or iPads for the students to use for either our school based or home based programs.

We offer the following two programs:

IN-SCHOOL

Computer classroom (where permissible by the district) that is supervised by an instructor to provide hands on verbal and written support for the students. We've found this instruction to be extremely effective as many students have appreciate a live supervisor during their online experience.

AT-HOME

An in-home visit by our local representative to help with connecting to the Internet, instruction for completing the program successfully, and support for any questions you may have. We also provide live support over the phone to assist with any technical or curriculum based questions.

(Spanish Version)

Academia.net, Inc. mejorará el rendimiento de su hijo a través de la tutoría en línea junto con la instrucción cara a cara en el ambiente seguro de la escuela de su hijo o en el hogar. Hemos tutorizado con éxito más de 4600 estudiantes en el estado de Washington entre 2003 y 2015. Academia.net, Inc. provee tutoría en matemáticas y artes del lenguaje, incluyendo la lectura y la escritura, para los grados K-12.

Academia.net, Inc. utiliza una evaluación integral para identificar las áreas de fuerza y crecimiento de cada estudiante y luego adapta las lecciones y la instrucción para satisfacer sus necesidades individuales. Basándose en los resultados de la evaluación inicial del alumno, creamos un plan de estudios personalizado para ayudar a los estudiantes a mejorar sus habilidades matemáticas y lengua y literatura. Nuestro programa basado en la escuela es una experiencia de aprendizaje mixto que ofrece lo mejor de dos mundos; instrucción en línea y la instrucción cara a cara por una instructor capacitado calificado. Nuestros servicios basados en el hogar ofrecen un alto nivel de flexibilidad, donde los estudiantes eligen su propio horario y completar un total de 20 a 30 sesiones en línea de una hora. Si es necesario, vamos a ofrecer ordenadores y / o iPads para los estudiantes a utilizar, ya sea para nuestros programas basados en la escuela o en el hogar basados.

Ofrecemos los dos programas siguientes:

EN LA ESCUELA

Aula de informática (donde permitido por el distrito) que es supervisado por un instructor para proporcionar las manos en apoyo verbal y escrita de los alumnos. Hemos encontrado esta instrucción para ser extremadamente eficaz como muchos estudiantes tienen apreciar un supervisor en vivo durante su experiencia en línea.

EN CASA

Una visita a domicilio por nuestro representante local para ayudar con la conexión a Internet, de instrucciones para completar con éxito el programa, y el apoyo para cualquier duda que pueda tener. También ofrecemos soporte en vivo por teléfono para ayudar con cualquier pregunta técnica o del plan de estudios basado.

Academic Tutoring Service

Contact Person: Julian Kung

Address: 2550 Corporate Place C108, Monterey Park, CA 91754

Email: info@academictutoringservice.com

PROGRAM DESCRIPTION

We have been providing supplemental educational services (SES) since 2009. Over the years, we have tutored more than 14,000 students, many of whom are Spanish-speaking English Language Learners. We provide FREE tutoring in Reading/English Language Arts and Mathematics to students in grades K-12. Our tutoring takes place in-person and includes both workbooks that students write in and online curriculum that is engaging and interactive. Our tutoring is 1:1 or in small groups of 5 students per tutor.

Our tutoring sessions are available 7 days of the week. Each weekday session is 1.5 hours and each weekend session is 2 hours. We offer tutoring before school, after school, on weekends, during the summer, and during intersession. We have experience tutoring low-income students, students from a variety of racial and cultural backgrounds, migrant students, English Language Learners, students with disabilities, and students with 504 plans.

Our curriculum and assessments are aligned to the Common Core State Standards. Each student receives a pre-test to determine their skill gaps and we focus on those skill gaps during each tutoring session. We meet with parents at the beginning of the program to learn more about each student and develop a learning plan, we also provide monthly progress reports to parents.

Our tutoring takes place at students' schools, community centers, school district facilities, faith-based centers (churches, temples, etc.) and private facilities. All of our tutoring sites are accessible by public transportation and we assist with the cost of public transportation for families who need that assistance.

Students who attend all available tutoring sessions, take our post-test, and whose parents complete a survey will earn an electronic device. Nosotros hemos estado proporcionando servicios educativos suplementarios (SES) desde 2009. Durante los años, hemos enseñado a más de 14,000 estudiantes, muchos de los cuales son hispano parlantes aprendices del idioma inglés. Ofrecemos tutoría en lectura/inglés y matemáticas en los grados K-12. Nuestra tutoría es en persona e incluye ambos libros de ejercicios y pedagógicos en línea los cuales son atractivos e interactivos. La tutoría es 1:1 o en grupos pequeños de 5 estudiantes por tutor.

Nuestras sesiones de tutorías están disponibles los 7 días de la semana. Cada sesión de lunes a viernes es de 1.5 horas y cada sesión de fin de semana es de 2 horas. Ofrecemos tutoría antes de clases, después escuela, los fines de semana durante el verano y durante la intercesión. Contamos con experiencia de tutoría para estudiantes de bajos recursos, estudiantes de una variedad de orígenes raciales y culturales, estudiantes migrantes, aprendices del idioma inglés, estudiantes con discapacidades y estudiantes del programa 504.

Nuestro plan de estudios y evaluaciones han sido desarrollados en base a los estándares estatales comunes. Cada estudiante recibe una prueba previa para determinar su déficit de habilidad y nos centramos en su déficit de habilidad durante cada sesión de tutoría. Nos reunimos con los padres al principio del programa para aprender más acerca de cada estudiante y desarrollar un plan de aprendizaje apropiado para el estudiante, también proporcionamos a los padres informes mensuales reportes del progreso del estudiante.

Nuestra tutoría ocurre en la escuelas del estudiante, centros comunitarios, instalaciones escolares, centros religiosos (iglesias, templos, etc.) y centros privado. Todos nuestros sitios de tutorías son

accesibles mediante transporte público y ayudamos con el costo del transporte público para familias que necesitan asistencia.

Los estudiantes que asisten a todas las sesiones de tutorías, tomaran un examen post, y los padres que completan una encuesta, recibirán una tableta electrónica.

Achieve HighPoints (by Datamatics Inc)

Contact Person: Tricia Gaffney

Address: 4375 River Green Pkwy Ste 200, Duluth, GA 30096

Email: triciag@achieveses.com

PROGRAM DESCRIPTION

Achieve HighPoints offers Math and Reading tutoring for grades 2-12. Our program offers a curriculum aligned with state standards with flexible tutoring schedules 7 days a week. Achieve HighPoints provides each student with a Tablet at the beginning of tutoring, which, students will use for the duration of tutoring and will be able to keep once they have completed the total program hours including pre and post test. We offer support for ELL and Special needs. Staff is Bilingual to help with communication in Spanish, Russian and Arabic

Achievement Matters, Inc

Contact Person: Genesiz Martinez

Address: 20700 Ventura Blvd Ste 232, Woodland Hills, CA 91364

Phone: (818)999-6200

Email: nclb@amk12.com

PROGRAM DESCRIPTION

ENGLISH:

Achievement Matters provides in-person one-on-one tutoring for students in Kindergarten through 12th grade in math and English/Language Arts (reading/writing). We believe that every student can learn and that every student deserves the opportunity to achieve their personal best. Our program focuses on creating a positive learning environment to increase student performance, while allowing them to overcome their weaknesses.

CONVENIENT LOCATION AND SCHEDULING: Tutoring is available at your location of choice. If you're worried about transportation, our tutors can teach in your own home. As an added convenience, we also offer tutoring in libraries and community centers. Sessions are held 2-3 times a week and can be provided after school, evenings, and on weekends, so you'll get to set your own schedule with the tutor!

QUALIFIED AND CARING TUTORS: We hire qualified individuals including state-certified teachers as well as Special Education teachers who have a passion for helping students learn. Our dedicated tutors and staff are committed to ensuring that the students get on track with their studies.

INDIVIDUALIZED APPROACH TO LEARNING WITH RESULTS: We carefully match our students to tutors based on learning preferences and academic subject. We also offer Special Education tutors for students with special needs, as well as bilingual tutors who can speak the student's native language. Our program is customized to fit the student's individual needs so that we can offer targeted instruction. Students are initially given a pre-test to pinpoint specific areas where improvement is needed based on state standards. Student progress is closely monitored to ensure the student's academic advancement and feedback is regularly communicated to the parents and the school district. Upon completion of the program, a post-test will be given to measure the student's improvement. We're confident that our services can help your child improve and achieve their academic goals!

SPANISH:

Achievement Matters ofrece tutoría uno-a-uno en persona para estudiantes de Kindergarten al 12 grado en matemáticas y lectura/escritura. Creemos que cada estudiante puede aprender y merece la oportunidad de lograr su mejor marca personal. Nuestro programa se enfoca en crear un ambiente de aprendizaje positivo para aumentar el rendimiento estudiantil, mientras permitiéndoles a superar sus debilidades.

Sitio y horario conveniente: La tutoría es disponible en el sitio de su preferencia. Si está preocupado sobre el transporte, nuestros tutores pueden enseñar en su propio hogar. También ofrecemos tutoría en bibliotecas y centros comunitarios. Las sesiones se llevan a cabo 2-3 veces por semana, después de la escuela, tardes, y los fines de semana. ¡Usted podrá establecer su propio horario con el tutor!

Tutores capacitados y comprensivos: Nosotros contratamos a maestros certificados y especialistas en la educación especial quienes se deleitan en ayudar a los estudiantes mejorar en sus estudios. Nuestros tutores y personal se dedican a asegurar que su estudiante(s) se ponga al día con sus estudios.

Estrategia individualizada con resultados: Nosotros cuidadosamente emparejamos cada estudiante con su tutor, dependiendo de las preferencias de aprendizaje del estudiante y la materia en que el estudiante necesite mejoramiento. También tenemos tutores bilingües disponibles quienes pueden comunicarse en español con estudiantes hispanohablantes. Nuestro programa es diseñado para servir las necesidades individuales de cada estudiante para lograr instrucción dirigida hacia las debilidades del estudiante. Al principio del programa, el estudiante toma un examen preliminar para señalar áreas específicas que necesitan mejoramiento en acuerdo con los estándares estatales. El progreso del estudiante es examinado cercanamente para asegurar que el estudiante este avanzando. A la conclusión del programa, administramos un examen final para el estudiante con la meta de medir su progreso. ¡Le aseguramos que nuestros servicios ayudaran a su hijo/a mejorar y lograr sus metas académicas!

Arrowhead Tutors, Inc

Contact Person: Kathleen Wruk
Address: 220 N. Larkin Ave., Joliet, IL 60435
Phone: 866-960-9668
Email: katie@ahtutors.com

PROGRAM DESCRIPTION

Arrowhead Tutors has helped students succeed in Math and Reading since 2009. Students completing our program see significant gains in progress, with an average improvement of 6.5 months in grade level equivalency. After taking an assessment test, we develop a personalized learning plan that addresses each student's unique needs. Instruction is provided in a 1-on-1 or small group setting. We offer flexible scheduling to accommodate all students with sessions taking place in school, in student's homes or other convenient locations.

ATS Project Success

Contact Person: Renee Weaver-Wright
Address: 20674 Hall Rd., Clinton Township, MI 48038
Phone: 800-297-2119
Email: info@atsedu.net

PROGRAM DESCRIPTION

ATS Project Success offers eligible students in grades K-12 support in mathematics and reading/language arts. Services are provided online, in the comfort and safety of the student's home. We use SuccessMaker® by Pearson Digital Learning to deliver instruction to students in grades K-8 and Compass Learning's Odyssey® for students in grades 9-12. We supply the learning tool (laptop computer), headset, and Internet connectivity, if necessary, to all of our students. Every computer is installed with a program called Deep Freeze, which keeps the student from accessing anything on the Internet other than their tutoring program. The student must reside in a T-Mobile or Verizon cellular area, or have existing Internet service, to participate.

Tutors monitor student performance online and work with the district to ensure student efforts in the program are helping them succeed in their regular classrooms. Students are encouraged to complete at least two, 1-hour sessions per week. Parents and students are called at least once a week with an update on progress and attendance. At this time, tutors take a proactive approach in discussing areas of difficulty the student may be displaying. Tutors are able to refer to a student's assignment to help him/her with questions of difficulty, as requested by the parent or student. Parents and students are encouraged to contact their tutor, for instructional support, as needed, via telephone or email. Tutors are available at the office, during our regular office hours of Monday through Thursday 8am-9pm, Friday 8am-4pm, and Saturday 9am-2pm EST. We also provide cell phones for our tutors to take home and use during after hours. This is another approach tutors utilize to make themselves available for their students. ATS takes pride in providing students every opportunity to be successful. Progress reports are sent (or emailed) to parents and the district on a monthly basis. Upon completion of the program, and if the parent has signed and returned all attendance summary reports, the student may retain the learning tool (laptop). Any device offering Internet connectivity, however, must be returned.

Hmong Translation:

Spanish Translation:

ATS Project Success ofrece apoyo en matemáticas y lectura/arte de lenguaje a estudiantes elegibles en los grados K-12. El servicio es en línea, en la comodidad y seguridad del propio hogar del estudiante. Utilizamos el programa SuccessMaker® by Pearson Digital Learning para instruir a los estudiantes en los grados K-8 y el programa Compass Learning's Odyssey® para los estudiantes en los grados 9-12. Proporcionamos a todos nuestros estudiantes la herramienta de aprendizaje (computadora portátil), audífonos y conexión a internet, de ser necesario. Cada computadora tiene instalado el programa llamado Deep Freeze, el cual evita el acceso del estudiante a otras páginas de internet y solamente utilice el programa de tutoría. El estudiante debe residir en un área compatible a celulares T-Mobile o Verizon o contar con servicio de internet propio para participar.

Los tutores monitorean en línea el desempeño del estudiante y trabajan con el distrito escolar para asegurarse que el esfuerzo del estudiante en el programa este dando resultado en el salón de clases. Los estudiantes son alentados a completar al menos dos sesiones de una hora por semana. Se les llama a los padres y estudiantes por teléfono al menos una vez por semana para proporcionarles un reporte de progreso y asistencia. Los reportes de progreso son enviados a los padres y al distrito escolar mensualmente (por correo normal o electrónico). Dependiendo del término del programa y de que los padres hayan firmado y regresado todos los reportes sumarios de asistencia, el estudiante podría conservar la herramienta de aprendizaje (computadora portátil). En caso de que haya sido enviado cualquier modem para conexión de internet, este deberá ser regresado.

Brave the Elements - The Children's Carousel Charitable Foundation, Inc

Contact Person: Karen Johnson
Address: 512 Mulberry Lane, DeSoto, TX 75115
Phone: 469-226-9811
Email: phenomenalacademics@yahoo.com

PROGRAM DESCRIPTION

Brave the Elements-The Children's Carousel Charitable Foundation, Incorporated is a Pre-K - 12th grade on-line, small group,tutoring service. Our mission, to enhance and motivate each student's educational experience in the content subject areas of Reading, Math, Language Arts, and Writing. Students are pre-tested to check what has been learned. Student learning plans are generated based upon pre-test scores, and assignments are provided for student practice in the subject area were students scored the lowest looking for 80% practice mastery. Students receive an electronic device distributed when tutoring begins, monthly progress reports, and a certified tutor. Our goal is to fill in the gaps not learned, and specialize in working with ESL, Special Education, and Juvenile Justice students. The location of service delivery for tutoring would be the student's home and online. There are times when we have served students in small groups at Starbucks, McDonald's, the library, or at a church. We are research-based using explicit systematic instruction, scaffolding and modeling, time on task, and reflecting upon scientific research by Wells, Rosen, Shine, Benson, the National Reading Panel, and the National Mathematics Advisory Panel. Our certified staff are trained to work with students using animations and interactive lessons on the computer combined with frequent remedial interactions with tutors. We provide online software based on live tutoring. The on-line learning environment consists of a virtual classroom, a computerized whiteboard, text, and voice chat.The classroom size is one student and one instructor allowing maximum concentration, focus and attention. BTE-The Children's Carousel has a vast database of tutors. Tutors have thorough knowledge of the Washington state curriculum standards.

Club Z! In-Home tutoring Services, Inc.

Contact Person: Cari Diaz
Address: 17425 Bridge Hill Court, Suite 200, Tampa, FL 33647
Phone: 800-434-2582
Email: ses@clubztutoring.com

PROGRAM DESCRIPTION

Club Z! offers two programs of tutoring instructed by highly qualified certified teachers and degreed professionals - one-on-one in-home sessions and group sessions (6 students max) in a secure public setting such as the student's school, public libraries, community centers, and other public facilities determined on a per-case basis and accessibility to public transportation. Total program hours will vary but sessions may be held in either program 1-3 times per week. The Club Z! program is wholly designed to meet the individual needs of students. Club Z! administers individual and group assessments from Pearson Education to enrolled students to pinpoint their academic weaknesses. The assessment(s) used are determined by the student's age, grade, and mode of instruction. Club Z! staff critically evaluates school provided assessment data and current grade level of each student to identify each student's academic needs. The Student learning Plan goals are then written to address the student's academic deficiencies. Club Z!'s successful program centers around the custom-made curriculum created to personally address each student's weak academic areas. Club Z! utilizes Pearson Education and Triumph Learning curriculum, both of which are directly aligned with Common Core State Standards. To maximize individual student achievement in our program, Club Z! trains our instructors in effective instructional strategies. By adapting instruction to the different needs of learners, Club Z! has been highly effective in improving academic performance. Evaluation of student's progress toward the SLP goals occurs frequently and is routinely reported to parents, teachers, and district personnel. Students who have completed Club Z! program have shown an average of one year's growth in reading and/or mathematics.

Club Z! ofrece dos programas de tutoría habían instruido por maestros certificados cualificados y profesionales con título - sesiones uno-a-uno en el hogar y grupo (máximos 6 alumnos) en un entorno seguro público tales como la escuela del estudiante, bibliotecas públicas, centros comunitarios, y otras instalaciones públicas determinaron sobre una base por-caso y accesibilidad al transporte público. Horas del programa total variará pero sesiones podrán realizarse en cualquiera de los programas 1 - 3 veces por semana. El Club Z! programa está enteramente diseñado para satisfacer las necesidades individuales de los estudiantes. Club Z! administra las evaluaciones individuales y grupales de Pearson Educación a los alumnos matriculados para identificar sus debilidades académicas. El re-establecimiento utilizado está determinado por la edad del estudiante, el grado y modo de la instrucción. Club Z! personal evalúa críticamente escuela proporcionada datos de evaluación y grado actual de cada alumno para identificar las necesidades académicas de cada estudiante. Estudiante aprendiendo los objetivos del Plan se escriben para abordar las deficiencias académicas de los estudiantes. Club Z! exitoso programa de s se centra en el currículo por encargo creado para atender personalmente las áreas académicas débiles de cada estudiante. Club Z! utiliza currículo Pearson Education and Triumph Learning, ambos de los cuales están directamente alineados con normas estatales fundamentales comunes. Para maximizar el logro individual de los estudiantes en nuestro programa, Club Z! capacita a nuestros instructores en estrategias de enseñanza efectivas. Mediante la adaptación de la instrucción a las diferentes necesidades de los educandos, Club Z! ha sido muy eficaz para mejorar el rendimiento académico. Evaluación del progreso del alumno hacia las metas SLP es frecuente y habitualmente se divulga a padres, maestros y personal del distrito. Estudiantes que hayan cursado Club Z! programa han mostrado un promedio de crecimiento de un año en lectura o matemáticas.

Education Futures Corporation

Email: washington@educationfuturescorp.com

PROGRAM DESCRIPTION

We are an experienced tutoring company; we have tutored more than 10,000 students at Title I schools over the past 7 ½ years. Below are the highlights of our program:

- We offer FREE, in person tutoring in READING/ENGLISH LANGUAGE ARTS and MATH students in grade K-8.
- We provide tutoring with Title I funds by the school district.
- We administer a Common Core aligned pre-test and post-test to our students.
- We provide tutoring to students from a variety of racial and cultural backgrounds, migrant students, English Language Learners (Spanish), students with disabilities (e.g., and students with 504 plans).
- We tutor students one on one or in small groups of 2-5 students per tutor.
- We provide our tutoring services at students' schools, community centers, school district facilities, faith based centers (e.g., church, temple, etc.), and private facilities.
- Our tutors are all state certified teachers and they use curriculum that is aligned to the Common Core State Standards.
- We provide an orientation for parents at the beginning of the program to familiarize parents with our program.
- We provide monthly progress reports to parents.
- All of our tutoring sites are accessible by public transportation and we provide transportation, as needed.

EduPlus LLC

Contact Person: Bindiya Chaudhry

Address: 5042 Wilshire Blvd. #23462, Los Angeles, CA 90036

Phone: 323-902-5880

Email: bindiyabaugh@gmail.com

PROGRAM DESCRIPTION

Through interactive one to one, animations in English as well as Spanish, on free tablets/laptops provided by EduPlus, students receive one-to-one tutoring that helps in excelling in their studies with ease. High quality research based instruction is imparted on the Internet combined with live one to one tutoring to guarantee minimum one grade improvement in students who complete the tutoring program.

A laptop/tablet and Internet connection is provided to each student who does not already have one to enable them to take our online classes. The shipping address is taken during an orientation call we make, right after we receive information from the school district about enrolled students. The parents and student are also informed at this point that they will be allowed to keep the equipment upon successful completion of the tutoring program. The same is also explained to them in writing through our welcome email.

EduPlus also caters to the specific needs of students with disabilities and/or special needs as well as ELLs and is available for students in grades K-12, in Reading and/or Math.

The EduPlus LLC program is centered on Compass Learning's Odyssey and our self-developed curriculum that has been designed by experts who have mastered not only the concepts but also the best way of explaining them to the students.

The instruction we provide is also in direct alignment with Common Core State Standards. We have mapped each grade's specific standards into our self-developed curriculum that we use for live online tutoring.

Students will receive tutoring thrice a week. Each session is for 90 minutes. We provide tutoring for a total of 30 hours.

In our tutoring we have combined engaging software instruction with live classes to enable us to give the best of both worlds to the students and maximize student achievement.

Eduwizards, Inc.

Contact Person: Shailendra Chainani

Address: 48 Huntting Drive, Dumont, NJ 07628

Phone: 201-706-7872

PROGRAM DESCRIPTION

We provide laptops to students to facilitate tutoring .We send them the laptop once we conduct the preliminary interview with them to understand their exact requirements. The laptop is shipped to them with in a week of the first contact . If the students complete the allotted tutoring sessions we let them keep the laptop if the district officials permit.

1 Online Tutoring LLC (GradeCracker)

Contact Person: Simon Anderson

Address: 11693 San Vicente Blvd # 211, Los Angeles, CA 90049

Phone: 800-694-9824

Email: 1onlinetutoring@gmail.com

PROGRAM DESCRIPTION

We provide individualized, one-on-one live and software based tutoring in a safe online environment. There is no transportation cost involved as the classes are conducted online at the student's home and hence can easily be accommodated into working parents' schedules.

To get enrolled in the tutoring program, a student takes an online assessment test, either offline or online. On the basis of the result of the test, we formulate an Individualized Learning Plan. At the end of the tutoring program, we conduct a post assessment test, which indicates the mastery level achieved by the student.

A standard tutoring session is of 60-90 minutes conducted 3 times to 4 times per week. The tutoring program is available between 8 am and 10 pm all 7 days in a week, 365 days a year. Our tutoring program includes tutoring in each of the subjects – Reading/English Language Arts and/or Math for students in grades K-12. We provide an Internet-enabled computer/tablet computer to the students who do not have it already. All instructional materials are provided by us as a part of the tutoring program. Our curriculum is aligned with the Washington State Learning Standards.

Since 2009, our program has served more than 5000 students throughout US. Out of these, 2067 were tutored in Reading who scored an average of 37% in Pre-assessment test, and 61% in the Exit test; 2933 students were tutored in Math who scored 45% average in the Pre-assessment Test and 73% in the Exit Test.

To teach ELL students, we use Spanish as part of the dual language program. Students are taught in their native language by specially trained bilingual teachers. For students with disabilities, our program is consistent with the student's individualized education program (IEP) under the Individuals with Disabilities Education Act.

PROGRAM DESCRIPTION

The ICA tutorial program has over 15 years of experience teaching and tutoring students from diverse backgrounds. Our program works with inner city students, rural, charter, public and private school students at all levels to improve standardized test scores and achieve academic success. Our instructional program consistently improves student test scores and academic performance. Our program uses pretests, mid-tests and post tests to assess student skill gaps and with this information, our instructors identify and prescribe instruction based on each student's strengths and weaknesses. We offer small interactive classes and high quality instruction in English language arts, mathematics and reading customized to meet each student's needs based on the pre-test. The program is correlated with Washington state standards to boost students' academic scores. Sessions are tailored to best meet student/parent needs, reflecting school agreements and program restrictions in specific academic areas. Direct Instruction Time – Our tutoring program is dedicated to helping students. We fully expect that they will achieve at higher levels when they complete our program than when they enter our tutoring program. In our SES programs, we provide between 23 and 29 hours of instruction per student. We expect to provide 20 – 29 hours of tutoring services to each student in any Washington school district in which we operate. We know approximately how much time it takes to engage and encourage students to excel in areas in which they have not achieved success in the past. Tutoring sessions are flexible and can be offered after school, twice per week, or in one hour sessions before or after school or in other formats. Sessions are offered in one- two hour segments – math for 60-120 minutes, language arts for 60 minutes and reading for 60 minutes.

Kinetic Potential Scholars

PROGRAM DESCRIPTION

Kinetic Potential Scholars Program: English

The Kinetic Potential Scholars (KPS) program is a comprehensive online program dedicated to the academic and social needs of at-risk youth. Founded upon the core belief that every child has remarkable potential, KPS provides a roadmap for these students, its future KP Scholars pairing every student with Tutors or Academic Mentors as well as Guidance and Career mentors, all of which results in a holistic, long-term approach to student success. KPS is delivered utilizing the Kinetic Potential Mentoring and Learning Platform including online collaborative whiteboards and/or Kineticville, an elearning environment, which provides an entirely Immersive Education experience for students. Kineticville creates a safe learning environment where students not only receive tutoring, but also have the opportunity to socialize with other students throughout the United States and around the world. The KP Mentoring and Learning Platform is based on the same commercial game & simulation technology that is used in video games and is designed to motivate students as self-learners in the same way that video games grab and keep the attention of players. Mentors reinforce positive behaviors such as timeliness, attendance and improved performance on challenge questions, quizzes and exams. Research has shown that students who participate in Immersive Education experiences demonstrate significant improvement in their confidence, interest and academic performance.

Kinetic Potential Scholars Program: Spanish

La KP Scholars (KPS) es un programa comprensivo por Internet dedicado a las necesidades académicas y sociales de la juventud en riesgo. Fundado en la creencia de núcleo que cada niño tiene un potencial notable. KPS ofrece un intanerario de clases para estos alumnos, KP Scholars asigna cada alumno con los profesores particulares. Asi como tambien con mentores y qui adores de campo de studio, esta organizacion resultara en un exito de largo plaspara la education del alumnus. KPS utilizar el Kinetic Potential Mentoring and Learning Platform incluidias "Applicant's technology" y / o KP Whiteboards, una isla virtual 3D en línea, que ofrece enteramente una experiencia de inmersión educative para los alumnus. "Applicant's technology" crea un ambiente en lo cual hay seguridad y en donde los no sólo reciban cursos particulares, sino también tienen la oportunidad de socializar con otros alumnos que viven por todos los Estados Unidos y alrededor del mundo. El KP Mentoring and Learning Platform se basa en la misma tecnología comercial de los juegos y de la misma forma que los juegos video capturan la atención de jugadores. Mentors reforzar comportamientos positivos como la puntualidad, de prestart atencion y de mejorar su preparacion, concursos y exámenes. Investigaciones han demostrado que los estudiantes que participan en la educación de inmersión experiencias demuestran mejora significativa en su confianza, interés y rendimiento académico.

Phone: 214-441-2266

Email: knowledgeislandses@gmail.com

PROGRAM DESCRIPTION

Knowledge Island provides free, high-quality tutoring program in reading and math to students in grades K-12. Online Tutoring uses Study Island, an online web-based curriculum. Tutoring is delivered one-on-one via online internet instruction. Our tutors monitor progress by observing the student's online lesson and assessment work in real-time and communicating with the student throughout the session via Skype chat and audio. In addition, immediately following each tutoring session, the tutor reviews student performance. We also provide students with a netbook with internet connection, instructional manual, and audio headset with which they can access the web-based curriculum study Island. We serve ELA and math students in grades K-12, including English learners. Tutoring sessions are 1 to 2 hours in duration; each student typically receives 1-3 tutoring sessions per week (including summer). All of our tutors are required to have a four-year college degree and a minimum of one year experience. We will provide Limited English Proficient (LEP) students with the accommodations appropriate and necessary to fully and successfully participate in our program (e.g., additional time to complete tasks). We have tutors available who speak other language: Spanish, Hindi, Urdu and Arabic.

PROGRAM DESCRIPTION

The talented professionals that are employed by our company possess an extraordinary passion for increasing the scholastic aptitude of the pupils we serve. Our tutors are qualified in teaching and working with students with various kinds of disabilities. Everything about our service delivery is determined during our intake process, where we work with parents to formulate a plan that focuses on providing SES in the way that is most suitable for them. By affording students the opportunity to receive instruction in an environment that is both familiar and conveniently located at their school or community setting, Parents determine when, where and how often the tutor meets with the pupil. We then customize our learning plan according to the needs of our students as outlined in the IEP, and as diagnosed by their performance on our Grade or Gmade pre-assessment. We also utilize a student interest inventory to gather information about each student's strengths and their individual learning style. The pre and post assessment serves as quantitative data, where the student interest inventory is a tool that provides us with the qualitative information that aids us in determining what approach is used during instruction. We especially favor use of multi-sensory manipulatives and activities to maximize receptiveness to concepts being taught and promote interactive learning. The program focuses on improving reading and math skills, which is the foundation for building upon mastery of other subjects.

Literacy in the Community, LLC.

Contact Person: William Jackson

Address: 1122 E. Pike #1413, Seattle, WA 98122

Phone: (206) 295-3695

Email: info@freeliteracy.net

PROGRAM DESCRIPTION

Dear parent or guardian, To aid your students in achieving their learning goals, while making after school learning fun, digital devices may be utilized and provided during student instruction. These engaging tools support reading comprehension through recorded questions, fluency through modeling and math through real world applications. Students will be engaged with exciting learning Apps directed by highly skilled Teachers and or college tutors. Students work together, when possible and encourage each other's learning. Engagement is particularly useful for ESL students. Parents are always welcome to attend and engage in any and all sessions. ESL parents can improve their own English language capabilities through engagement.

For those needing assistance in reading, Students and tutors access reading apps and engage in book discussions and activities together to help improve reading fluency and word recognition by seeing and hearing the words. In groups of 2 to 4, students access books with the teacher and engage in book discussions, which also help to improve reading fluency and comprehension.

For those needing assistance with math, students engage with the Teacher and access math apps to gain an understanding of concepts such as addition, subtraction, as well as fractions and algebra, geometry, statistics and data.

Students who successfully complete the program may be allowed to keep the learning device they use.

Keep us informed of any questions, concerns and student progress at www.freeliteracy.net

Email: Alinaaaa@me.com

PROGRAM DESCRIPTION

Tutors will understand area(s) of weaknesses of the students by first assessing grade level test (Sample test included for 6th, 7th, 8th, and high school students). Then tutors will setup tutoring time on a one on one basis and will work on area(s) of improvement and will provide worksheets that are in line with the Washington Core Standards. Tutors will also help set goals with individual students to instill confidence, while monitoring their grade throughout the tutoring process. Tutors will also keep in contact with student's teacher so that the teacher, tutor, and parent(s) are synch with the effectiveness of the program. The length of the tutoring sessions will be an hour each week at the student's home or at a local community center (i.e. library, school, etc.) Model of instruction will be on a one on one basis and goal setting will be taught from the initial meeting of tutor and student. The students will go back to goals every week and update their status by bringing progress reports to tutors and tutor will reach out to student by asking questions on difficulty of reaching goals and helping them with those difficulties. Tutors will teach mini lessons: lesson in which a brief discussion on area of topic and will interact with students by doing sample problems. Assessments will be based upon the instructional examples given during time of tutoring and how well they did on the homework assigned by the tutors. Instructional materials provided to students will range from "Washington MSP Practice Workbook" to lessons in students textbook.

One on One Learning

Contact Person: Marcel Monnar
Address: 8900 SW 117 Ave C-103, Miami, FL 33186
Phone: 305-273-8999
Email: mmonnar@oneononelearning.com

PROGRAM DESCRIPTION

The applicant's program is designed with the intention of developing instruction to address the individual needs of students. A pre-test correlated to the Common Core State Standards in reading and/or mathematics is administered to all students. Individual skill gaps are identified and an intervention is prescribed according to the student's strengths and weaknesses. Furthermore, feedback from parents, teachers, and school personnel is requested to help ensure the appropriate selection of learning goals. Students are placed with a trained, qualified instructor and complete daily lessons and activities that are designed to promote learning and mastery of all identified deficiencies. Student progress is measured by quizzes and tests taken upon the completion of each lesson. A monthly progress report is provided to parents and classroom teachers. Final student achievement is measured by the completion of a post-test correlated to the Common Core State Standards.

Professional Tutors

PROGRAM DESCRIPTION

We provide individualized tutoring instruction (always One-to-One) in Math, Reading, English Language Arts or Science. Tutoring is done at the student's home or a local library. We test each student to determine his/her strengths and weaknesses, and tutoring focuses on these to provide maximum results. Student progress is evaluated by our tutors through worksheets/workbooks and tests developed on Skills Connection. Parents are given weekly progress reports through direct consultation with our tutors. We have been providing one-to-one tutoring for over 30 years, and one-to-one tutoring is proven to be the most effective method of learning. We have a strong, proven record with over 300 school districts, improving academic skills, motivating students, and building self-confidence. We have Spanish, Chinese, Filipino and Vietnamese speaking tutors available. During the 2013-2014 School Year we provided one-to-one tutoring for over 6,600 students (in 300 School Districts). The average increase from the pre-test to the post-test was 18.8 pts = 1.5 to 2 grade levels. Ofrecemos tutoría individualizada (siempre uno a uno) en Matemáticas, Lectura, Lenguaje y en Ciencia. La tutoría se realiza en la casa del estudiante o en una biblioteca local. Cada estudiante completa un examen el cual determina las áreas de fortaleza y las áreas en las que el/la estudiante necesita mejorar. La tutoría se centra directamente en los resultados del examen para proporcionar máximos resultados. El progreso del estudiante es evaluado por los tutores a través de hojas de trabajo / libros de trabajo y exámenes desarrollados en Skills Connection. Los padres reciben informes de progreso cada semana a través de la consulta directa con nuestros tutores. Tenemos profesores particulares y personales disponibles que hablan español. Nuestra compañía ha estado proporcionando tutoría individual por durante 30 años, y estudios han demostrado que uno-a-uno es el método más efectivo de aprendizaje. Contamos con un historial sólido, comprobado con más de 300 distritos escolares, mejorando las habilidades académicas, motivando estudiantes, y construyendo la confianza en sí mismo. Durante el año escolar 2013-2014, le ofrecimos tutoría uno-a-uno a más de 6,600 estudiantes (en 300 distritos escolares). El aumento promedio del examen inicial al examen final fue de 18.8 puntos = 1.5 a 2 grados.

Promise Tutorial

PROGRAM DESCRIPTION

Promise Tutorial offers K-12 free tutoring courses in Reading, Writing and Mathematics. Our organizations program focuses on a learners program that will build the students reading, writing and mathematic skills in order to perform stronger in school. Students are required to complete one to two hours per day, four to five days per week individualized plans that will assist in quicker reading comprehension, mathematical problem solving and standard writing skills. The selected tutorial sites will include the students school, home, local community center, organizations offices and library. In addition, the course instructional material will be accessible on line. All materials, tools will be provided at no cost.

Read Right

Contact Person: Dee Tadlock

Address: 310 W Birch, Shelton, WA 98584

Phone: 360-490-1680

Email: deet@readright.com

PROGRAM DESCRIPTION

This program is an innovative, highly structured reading intervention system that causes the brain to “remodel” the neural networks that, in struggling readers, incorrectly guide the reading process. As the networks are remodeled, rapid progress towards excellent reading results. Students read with increased internal comfort, their comprehension dramatically improves, and, when reading out loud, they sound more natural—like conversational speech. The system design makes it possible for every student (including dyslexics) to achieve excellence. It is an exciting approach for struggling readers because they are immediately enabled to produce oral reading that is authentically excellent—something they have never before experienced.

Each student begins the program at an optimum reading level—text complexity that is not too hard but that provides an appropriate degree of challenge. The student progresses to higher levels of text as soon as the reading problem has diminished sufficiently to warrant it. The instructional focus is not on rapid word identification, but rather is on active construction of meaning, thus assuring the development of strong comprehension skills.

The program is 100% individualized. The tutor’s interaction with the student is determined by the student’s performance in the moment together with his history of performance during the last few tutoring sessions. Instruction is delivered only when the student’s performance demonstrates a need. Thus the program is maximally efficient and effective.

Students are never asked to do anything they can’t do, which allows us to establish and rigorously enforce high expectations. Self-esteem soars, and hope is ignited.

The program is delivered through live tutoring, using audio-and-video conferencing software to connect the student and the tutor. Thus, it is convenient—tutoring can be done in the student’s own home, assuming access to a computer with high-speed internet, webcam and headset with an attached microphone plugged into a USB port.

Studentnest

Contact Person: Chander Joshi

Address: 2121 Merced St, Fresno, CA 93721

Phone: 559 486 1251

Email: chanderjoshi88@gmail.com

PROGRAM DESCRIPTION

The applicant provides high quality, research-based, live, interactive, online tutoring in Mathematics, Reading and English Language Arts proven to increase students' skills and deepen their understanding of concepts. Our tutors are chosen because of their demonstrated caring attitude, enthusiasm for and skill in teaching and ability to reach, relate to and to motivate students. We have tech and call center support anytime sessions are offered. Every tutor holds a Bachelor’s degree and has a minimum of two years of successful work experience. Students interact with tutors one-on-one or in a small group using a headset with microphone and voice over internet protocol technology 1-2 hours 2-3 times per week. Tutoring is available before school, after school, weekends and holidays. Students and tutors hear each other and interact visually using our virtual classroom computer screen and whiteboard. In each session, students practice the skills they need based on diagnostic testing. The personalized instruction each student receives is based on a learning plan approved by the parents. Using lessons aligned with WA State Learning Standards prepares students for the real state exams. Bilingual tutors are available when needed. Over the 9+ years of program operation we have consistently seen students test scores increase approximately 18 % from pre to post test. We will provide computer and internet for student use when needed. Students are provided equipment without any cost to the parent/student. Only three (3) things are needed. 1. Computer. 2. Internet connection. 3. Headset with a Microphone. If a student has a computer and Internet, then all we have to provide is a headset with a microphone. However, if the student does not have a computer and/or the Internet, we provide a “refurbished” computer and access to the Internet for the duration of tutoring.

Sylvan Learning Center of Silverdale

PROGRAM DESCRIPTION

Sylvan Learning is well known premier brand in tutoring. Founded over 35 years ago in the Pacific Northwest, Sylvan programs have helped thousands of students reach their academic goals. Our Math and Reading programs include:

- ~Skills assessment identifies specific skill gaps.
- ~Math and Reading programs aligned to your schools standards.
- ~Regular parent and teacher communication.
- ~Motivation program to help develop a love of learning.
- ~Highly trained and certified teacher.
- ~Options for in-center, & Tacoma-Area Boy's and Girl's Club program locations.
- ~Local ownership and accountability to each customer.
- ~High customer satisfaction.
- ~35 years of proven growth success with students!

When you hire Sylvan, you have an entire team of highly trained and motivated educators available for you and your child. Many teachers and principals bring their own children to Sylvan Learning! We will provide the highest quality program and customer service for you and your child and celebrate the success that comes with achievement. We look forward to working with you!

SPANISH VERSION:

Sylvan es la mejor escuela en tutoría en el mundo. Fundada hace 35 años en el Noroeste del país, los programas han ayudado a miles de estudiantes a alcanzar sus metas académicas. Nuestros programas incluyen:

- ~ Examen de conocimientos para identificar las necesidades específicas de su hijo/a.
- ~ Programas llenos de motivación al aprendizaje.
- ~ Maestros altamente entrenados y certificados.
- ~ Opción para asistir al centro o en Boy's and Girl's Clubs.
- ~ Exitoso avance en lectura y matemáticas.
- ~Comunicación regular entre padres y maestros.
- ~Programas de matemáticas y lectura alineadas a las niveles de su escuela.
- ~Alta satisfacción del cliente.
- ~Propiedad local y responsables de cada cliente.
- ~35 años de crecimiento demostrado éxito con estudiantes.

Con Sylvan te encontraras un equipo de educadores motivados y disponibles para sus hijos. Maestros y directores traen sus hijos a Sylvan también. Le ofrecemos el programa de más alta calidad y servicio de atención al cliente para usted y su hijo, y celebrar el éxito que viene con el logro. Esperamos con interés trabajar con usted!

TC Tech Tutor

Contact Person: Andrea Smith
Address: 35 E. 9th st, Newport, KY 41071
Phone: 704-352-4775
Email: admin@tctechtutor.com

PROGRAM DESCRIPTION

TC Tech has provided specialized tutoring that is personalized to the student's needs with exceptional results. We are Reading and Math Specialists providing tutoring in both Reading and Math for students in grades K-12. We offer flexibility with multiple options in order to serve you. Instruction can be delivered through live instruction online with an Instructor who works with the students through a platform of shared web based material in real time by utilizing a live interactive digital whiteboard with full audio and visual components for real time tutoring. Students work with a computer that solely gives the student access to the program's online lesson plan curriculum in order for exclusive, isolated work to occur in the convenience of your own home or in person in the convenience of your school site after school with provided transportation. Our impact on student achievement is an average raise of two letter grades or 20% increase. An average of 98% of our students have also passed their district test following completion of the tutorial program.

Tutorial Services

Contact Person: Jeannie Schultz
Address: 164 S Industrial, Saline, Michigan 48176
Phone: 734-470-6387
Email: jschultz@tutorialservices.org

PROGRAM DESCRIPTION

Tutorial Services is an online tutoring company that utilizes the program CompassLearning. We provide a laptop computer to students so they can access the tutoring program from home. We tutor grades K-12 in Math and Reading/Language Arts. Our program operates 24/7 and the students are able to access their lessons at any time and as much as they need to. We recommend that students access our program 2-4 hours per week in order to complete the district specified hours of tutoring. We can also provide blended online/live tutoring for students. While the student is logged onto the tutoring program, our tutors provide simultaneous instruction over the computer and phone. Our tutors have obtained their Bachelor's Degree from an accredited institution and have previous experience in teaching and/or working with youth. The qualified tutors will monitor the students work and report regularly on their progress. We update families every two weeks on the progress of their child as well as send out progress reports every month. There is a 1:1 ratio of students to tutors. In order to properly assess the students, they complete the CompassLearning Pre Tests in each subject being tutored. We utilize these scores to individualize each child's lessons to their specific learning needs. The average student increases in Math and/or Reading Language Arts by a minimum of 16% from using our program. We are also capable of providing services to students with disabilities and students who speak languages other than English.

Variations Educational Services

Contact Person: Eloka Okonkwo
Address: 2534 State St., San Diego, CA 92101
Phone: (888) 537-3977
Email: ses@variationsprep.com

PROGRAM DESCRIPTION

Variations Educational Services uses highly effective, research-based methods to increase students' performance. The program adopts the Study Island curriculum and a blended approach that uses technology to extend the possible contact hours with students. Our instructors consist of certified teachers and paraprofessionals with an Associates or higher degree. Variations Educational services utiliza métodos muy eficaces, basadas en la investigación para aumentar el rendimiento de los estudiantes. El programa adopta el plan de estudios de la Isla de Estudio y un enfoque mixto que utiliza la tecnología para ampliar las posibles horas de contacto con los estudiantes. Nuestros instructores son formados por maestros certificados y para-profesionales con una asociada o grado superior.

Wowzers

Contact Person: Paige Woolery

Address: PO Box 6686, Chicago, IL 60699

Phone: 773-858-1267

Email: paige@wowzers.com

PROGRAM DESCRIPTION

ENGLISH VERSION:

Wowzers is an online, direct instruction, math and reading/ELA program for students in K-12 grade. Wowzers is delivered online. Parents and teachers can follow students online as they progress through learning activities tied to Washington learning standards. An online tutor is assigned to each student. Students can access their online program anytime between the hours of 7:00am and 7:00pm, seven days a week. Wowzers can be used on computers, tablets, or mobile devices. Anything with an internet connection.

Wowzers' increases student achievement by combining engaging game-based mechanics with rich, state standard aligned content.

Students begin by taking a diagnostic/prescriptive assessment that identifies learning priorities for each student. Then the Wowzers Adaptive Engine creates an individualized learning playlist for each student based on their own academic areas of need and learning style. Students receive direct instruction through a lesson that adapts as they advance. An online tutor provides remediation and helps the student along their learning path.

Wowzers is deployed over the web to PCs and mobile devices. It uses student data from an initial assessment to create learning pathways, and then adapts as data is collected on every click to help provide an individualized learning experience for each child. All lessons have been tied to Washington curriculum standards by a team of credentialed educators whom are all trained on standards aligned instruction and learning processes, including curriculum calibration, and explicit direct instruction for standards based teaching. Additionally online tutors, classroom teachers, principals, parents, district stakeholders, etc. can see live data on student performance, and adjust learning goals, pacing, etc. as needed.

A study conducted by the University of Memphis showed that students who participated in the Wowzers program showed "high-impact" gains in math and reading/ELA.

SPANISH VERSION:

Wowzers es un programa en línea con instrucciones directas para los estudiantes de k-12 grado en lectura y matemáticas. Wowzers es completamente por internet. Padres y maestros pueden seguir a los estudiantes en línea mientras ellos progresan en sus actividades de aprendizaje, las cuales están unidas a los estándares de aprendizaje de Washington. Un tutor en línea se le asigna a cada estudiante y los estudiantes pueden acceder a su programa en línea en cualquier momento entre las horas de 7:00 a.m. y 7:00 p.m., los siete días de la semana. Wowzers puede ser utilizado en computadoras, tabletas, teléfonos y cualquier otro dispositivo que tenga conexión al internet.

Wowzers aumenta el logro del estudiante mediante la combinación de la mecánica a base de juegos los cuales están alineados al estándar estatal.

Los estudiantes comienzan tomando una evaluación de diagnóstico que identifica prioridades de aprendizaje de cada estudiante. A continuación, la adaptación del motor de Wowzers crea una lista de reproducción de aprendizaje individualizado para cada alumno en función de sus propias áreas académicas. Los estudiantes reciben instrucción directa a través de una lección que se adapta a medida que avanza. Un tutor en línea proporciona remediación y ayuda al estudiante a lo largo de su ruta de aprendizaje.

Wowzers se despliega a través del internet usando dispositivos móviles. Utiliza datos de los estudiantes a partir de una evaluación inicial para crear itinerarios de aprendizaje y luego se adapta conforme el estudiante vaya contestando preguntas para así poder modificarse e individualizarse para cada niño. Todas las lecciones se han atado a los estándares del plan de estudios de Washington por un equipo de educadores quienes están entrenados en los estándares alineados. Además los tutores en línea, maestros, directores, padres, los responsables del distrito, etc pueden ver datos en tiempo real sobre el rendimiento de los estudiantes y ajustar los objetivos de aprendizaje, estimulación, etc, según sea necesario. Un estudio realizado por la Universidad de Memphis demostró que los estudiantes que participaron en el programa wowzers mostraron ganancias "de alto impacto" en matemáticas y lectura / ELA
