

Students Praise Almost-New Silverdale Elementary

The modernized and renovated Silverdale Elementary opened to students in September. Nearly every aspect from inside the building to the parking lot was improved.

Students were wide-eyed as they walked into Silverdale Elementary in September.

After a year of renovation and modernization, the entrance and inside of the school looked little like their old school. They roamed the hallways with their parents, checking out new classrooms and peeking around corners.

Thanks to the community's support of a capital projects measure in 2011, the school was made almost new. Students attended host schools while construction crews renovated and modernized.

Every classroom and work area, every bathroom, the gym, cafeteria, stage, entrance and even the hallways were redone.

Students were asked what they liked most about their new school. Favorites ranged from the entryway, to classrooms and the gym. One second-grader exclaimed, "We have windows!" Well, they had windows before. But now they have more windows so natural light can flood both classrooms and hallways.

Students have also notice the new technology in every classroom, such as large touch-screen monitors to replace projectors. They also like seeing their school mascot, dolphins, dance along the entrance walls.

At the school's ribbon-cutting ceremony, staff also shared favorites, such as the artwork, the way the building flows and the new technology. "We have a beautiful state of the art new building and a great place for our kids to learn," said Principal Ninette Rivero. "Thank you, Central Kitsap!"

PROMISES MADE, PROMISES KEPT

capital projects progress: major projects

Your support allowed us to start complex planning for three major construction projects. In the past year, we made significant progress to repair critical systems in several schools and plan new, secure entry systems in all our schools.

CK High, CK Middle Campus

State-of-the-art classrooms, labs and career and technical areas will better prepare CK High and CK Middle students for college and careers. Minimizing the distance between schools improves transitions. Students will attend the new schools in fall 2019.

See our progress: This spring, we'll start to demolish select buildings and prepare the site.

Klahowya Secondary Addition

We'll move students out of portables and into permanent classrooms and give them an auxiliary gym and second music room. All new areas will open by summer 2018.

See our progress: This spring, parking and traffic flow around the school will change as we make way for construction equipment.

Olympic High Modernization

At Olympic High School, new career and technical education classrooms will get students out of portables and help them learn skills for tomorrow's careers.

See our progress: You'll see a library facelift start this spring, and construction will start this summer.

CAPITAL PROJECTS PROGRESS: look back, look ahead!

Thanks to our community's support, we're building better learning environments for students. We've completed a lot of work this past year. That work included preparation for major construction on three high school campuses in 2017.

2016

CK community supports bond: Thank you!

Ridgetop and Fairview track renovation

Fire safety system at Woodlands

Interior doors added at PineCrest

CTFW facility construction begins

Olympic building repairs

Klahowya roof replacement

Silverdale modernization complete

2017

Klahowya addition construction starts

Modernization work at OHS begins

CK Campus: Begin demolition, site preparation

CTFW facility: Opens summer 2017
